

RANKREEL TUTORIAL- HOW TO CONNECT/INTEGRATE SYVID TO RANKREEL

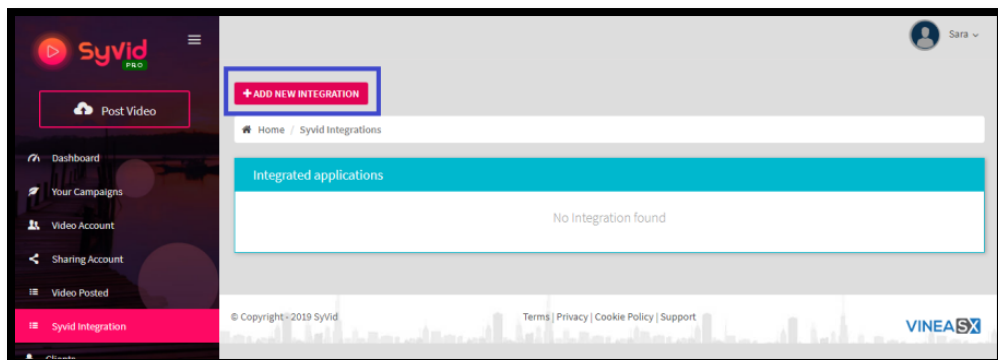

Note- In order to integrate your RankReel app with SyVid, you must have an active subscription to SyVid Application.

Follow these simple steps below to integrate your RankReel application with SyVid:

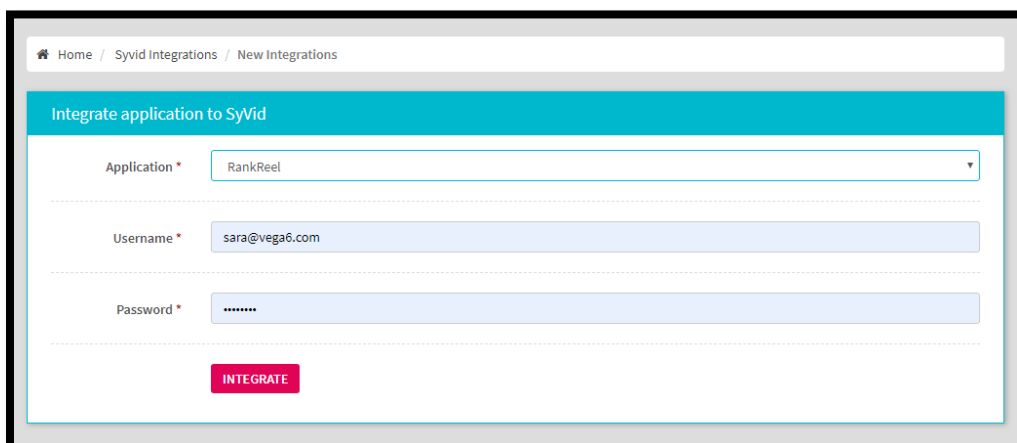

1. Log in to your SyVid account, then on the dashboard, click **SyVid Integration**.

2. Click + Add New Integration button.

3. You will be directed to a page where you will be integrating an application with SyVid. Kindly click on the dropdown selection beside the Application option, on this case choose **RankReel** then enter your RankReel log in credentials. Click **Integrate**.

A screenshot of the 'Integrate application to SyVid' form. The form has a light blue header and contains three input fields: 'Application' (a dropdown menu with 'RankReel' selected), 'Username' (with the value 'sara@vega6.com'), and 'Password' (with masked characters). A red 'INTEGRATE' button is located at the bottom of the form. The breadcrumb trail at the top reads 'Home / Syvid Integrations / New Integrations'.

4. You will receive a small pop-up saying Integration saved successfully and you will see RankReel listed on the Integrated applications table as well as your User ID in the integrated application.

The screenshot shows a web interface for managing integrations. At the top left, there is a red button labeled "+ ADD NEW INTEGRATION". To the right, a green notification box displays a checkmark and the text "Integration saved successfully". Below this is a breadcrumb trail: "Home / Syvid Integrations". The main content area is titled "Integrated applications" and contains a table with the following data:

APPLICATION NAME	USER ID	STATUS	ACTIONS
RankReel	adi	0
